Dual Recovery Therapy (DRT) & Acudetox, 3:30 PM – 5:00 PM

Dual Recovery Therapy (DRT) is for people with both substance use and mental health challenges. It combines addiction treatment therapies (Relapse Prevention, Motivational Enhancement Therapy, and 12-Step Facilitation) and mental health approaches (Cognitive-Behavioral Therapy and Social Skills Training). Acudetox is a three-to-five-point acupuncture protocol specifically designed for those struggling with substance use issues. The acupuncture needles are gently placed by an Acupuncture Detoxification Specialist (ADS) in the ear at specific points. This helps balance the body’s energy and assists the healing process. The DRT & Acudetox group is facilitated by our partnering counselors from the Harrisonburg Center for Relational Health.
